# FASHION MEETS FURNITURE

## Reflections

**H**omes are reflections: reflections of who we are, how we live and how we dress. When we present ourselves to the world, our personalities shine through. When someone crosses the threshold to our home, the same is true. Imagine someone described as vibrant and colorful. Is their home just as charismatic?

Structured, serious; trendy, chic; shabby, glamorous; dramatic, simple — these words can describe the look and feel of your home in the very same way they would your sense of style. And oftentimes, your fashion preferences (colors, patterns, fabrics, clean lines or curvy) coincide with the choices you make in the various rooms of your home.

Take a look around where you live. Then take a look in the mirror — do you see any similarities?

Enjoy this example of how the fabulous fashions of three Andover clothing stores and one shoetique converge with the spectacular craftsmanship and impeccable furnishings of Mitchell Gold + Bob Williams in Burlington, Mass.
